

**CANDIDATE FOR TOWN COUNCIL MEMBER  
TOWN OF APPLE VALLEY**

**NAME: DANIEL SEAGONDOLLAR**

**OCCUPATION: Architect/Business Owner**

There are things that must change in our town. I can help create solutions with my professional experience. I will address:

- Mismanagement of road improvement projects.
- Failure to follow zoning laws
- Improperly noticed meetings
- Over-budget public projects

Using my background in civil engineering, I will closely monitor road design and construction procedures.

I will use my 25 years of experience as an architect to identify conflicts between our existing community and new growth. I will create a master plan for development in Apple Valley requiring every new home be built on a half-acre or larger lot.

I will demand that meetings are properly noticed before issues are discussed.

As an architect, I can identify the pit-falls that cause over budget projects and can provide direction to avoid them.

I will concentrate on the important issues. Preventing traffic congestion, building and maintaining better roads, providing law enforcement, and mandating planned growth that will promote access to healthcare facilities for our seniors and safe activities for families.

I have been a resident of Apple Valley for the past 31 years. I want to help shape a community we can all enjoy. Please visit my website [www.danfortowncouncil.com](http://www.danfortowncouncil.com).
